

**Note:**

This document is a summary of the relevant Auckland Unitary Plan (Operative in Part) (AUP (OP)) chapters to assist with determining if mana whenua values can be considered in relation to a consent application under the AUP (OP).

The AUP (OP) is updated over time and updates will be made to these chapter summaries quarterly. This chapter summary reflects the AUP (OP) provisions as of June 2021. As changes may be made to the AUP (OP) more frequently than this document is updated, please refer to the AUP (OP) for the full text and provisions.

**F2. Coastal – General Coastal Marine Zone****Table F2.19.1 Activity table - Drainage, reclamation and declamation**

Activity		Activity status						
		GCM Zone	SEA-M1, ONC	ONL	SEA-M 2, HNC	ONF Type A1 and A	ONF Type V1, V2, B, C, D, E, F	HH
(A1)	Reclamation or drainage not otherwise provided for	NC	Pr	NC	NC	Pr	Pr	Pr
(A2)	Maintenance or repair of a lawful reclamation or drainage system	P	P	P	P	P	P	P
(A3)	Minor reclamation for the purpose of maintaining, repairing or upgrading a lawful reclamation	RD	D	D	D	D	D	D
(A4)	Reclamation or drainage for any of the following: <ul style="list-style-type: none"> <li>carried out as part of rehabilitation or remedial works;</li> <li>where it is required for the safe and efficient operation or construction of infrastructure; or</li> <li>where it is necessary to provide for safe public access to, within or adjacent to the coastal marine area.</li> </ul>	D	NC	NC	NC	NC	NC	NC
(A5)	Authorisation of an unlawful reclamation under s 355A Resource Management Act 1991	D	NC	NC	NC	NC	NC	NC
(A6)	Declamation	D	NC	NC	NC	NC	NC	D

**Table F2.19.2 Activity table - Depositing and disposal of material**

Activity		Activity status						
		GCM Zone	SEA-M1, ONC	ONL	SEA-M2, HNC	ONF Type A1 and A	ONF Type V1, V2, B, C, D, E, F	HH
(A7)	Coastal marine area depositing of material where the deposited sediment is extracted from within the same coastal cell: <ul style="list-style-type: none"> <li>• maximum of 1500m<sup>3</sup> per 12 month period</li> </ul>	P	D	RD	P	D	NC	D
(A8)	Coastal marine area depositing of material where the deposited sediment is extracted from within the same coastal cell: <ul style="list-style-type: none"> <li>• between 1500m<sup>3</sup> and 10,000m<sup>3</sup> per 12 month period</li> </ul>	RD	NC	D	D	D	NC	D
(A9)	Coastal marine area depositing of material from outside the coastal cell: <ul style="list-style-type: none"> <li>• maximum of 10,000m<sup>3</sup> per 12 month period</li> </ul>	RD	NC	D	D	NC	NC	D
(A9A)	Coastal marine area depositing of material where the deposited sediment is extracted from within the same coastal cell: <ul style="list-style-type: none"> <li>• greater than 10,000m<sup>3</sup> of sediment per 12 month period, where it is required for the safe and efficient operation or construction of infrastructure</li> </ul>	D	NC	NC	D	NC	NC	NC
(A10)	Coastal marine area depositing of material not otherwise provided for	D	NC	NC	NC	NC	NC	NC
(A11)	Disposal of waste or other matter in the Hauraki Gulf Marine Park, not otherwise provided for other than for the following: <ul style="list-style-type: none"> <li>• where it is part of an approved reclamation; or</li> <li>• rehabilitation or restoration programme in degraded areas of the coastal marine area.</li> </ul>	Pr	Pr	Pr	Pr	Pr	Pr	Pr

Activity		Activity status						
		GCM Zone	SEA-M1, ONC	ONL	SEA-M2, HNC	ONF Type A1 and A	ONF Type V1, V2, B, C, D, E, F	HH
(A12)	<p>Disposal of waste or other matter in the coastal marine area. Limited to the following:</p> <ul style="list-style-type: none"> <li>• dredged material;</li> <li>• sewage sludge;</li> <li>• fish processing waste from an onshore facility;</li> <li>• vessels, platforms, or other man-made structures;</li> <li>• inert, inorganic geological materials;</li> <li>• organic materials of natural origin; or</li> <li>• bulky items consisting mainly of iron, steel and concrete.</li> </ul> <p>Excludes the following:</p> <ul style="list-style-type: none"> <li>• disposal or storage of waste or other matter arising directly from, or related to, the exploration, exploitation and associated offshore processing of seabed mineral resources; and</li> <li>• a discharge made in accordance with section 15B of the Resource Management Act 1991 or Part 3 of the Resource Management (Marine Pollution) Regulations 1998.</li> </ul>	D	D	D	D	D	D	D
(A13)	Disposal or storage of waste or other matter arising directly from, or related to, the exploration of seabed mineral resources where the exploration is a permitted activity	P	NC	NC	NC	NC	NC	NC
(A14)	Disposal or storage of waste or other matter arising directly from, or related to, the exploration of seabed mineral resources not otherwise provided for	RD	NC	NC	NC	NC	NC	NC
(A15)	Disposal or storage of waste or	D	NC	NC	NC	NC	NC	NC

Activity		Activity status

## **Guidance – F2. Coastal – General Coastal Marine Zone**

For controlled activities the cultural values assessment trigger only applies where mana whenua values are identified as a criteria for scheduling the site (refer to the relevant Overlay and Schedule) or in the case of Schedule 14.1 Historic Heritage Overlay where the site or place is identified as a place of interest to mana whenua.

### **F2.22. Assessment – controlled activities**

#### **F2.22.1. Matters of control**

The Council will reserve its control to all of the following matters when assessing a controlled activity resource consent application:

- (1) mangrove removal to enable the operation, maintenance, use and functioning of existing lawful structures, infrastructure or to ensure public health and safety in the use or operation of infrastructure (maximum of 30m<sup>2</sup> in: [D9 Significant Ecological Areas Overlay](#); [D10 Outstanding Natural Features Overlay and Outstanding Natural Landscape Overlay](#); and [D11 Outstanding Natural Character Overlay and High Natural Character Overlay](#); and [D17 Historic Heritage Overlay](#)):
  - (a) effects on values of [D9 Significant Ecological Areas Overlay](#); [D10 Outstanding Natural Features Overlay and Outstanding Natural Landscape Overlay](#); and [D11 Outstanding Natural Character Overlay and High Natural Character Overlay](#); and [D17 Historic Heritage Overlay](#); and

#### **F2.22.2. Assessment criteria**

The Council will consider the relevant assessment criteria for controlled activities:

- (1) mangrove removal to enable the operation, maintenance, use and functioning of existing lawful structures, infrastructure or to ensure public health and safety in the use or operation of infrastructure (maximum of 30m<sup>2</sup> in [D9 Significant Ecological Areas Overlay](#); [D10 Outstanding Natural Features Overlay and Outstanding Natural Landscape Overlay](#); and [D11 Outstanding Natural Character Overlay and High Natural Character Overlay](#); and [D17 Historic Heritage Overlay](#)):
  - (b) whether the effect on the values of the [D9 Significant Ecological Areas Overlay](#); [D10 Outstanding Natural Features Overlay and Outstanding Natural Landscape Overlay](#); and [D11 Outstanding Natural Character Overlay and High Natural Character Overlay](#); and [D17 Historic Heritage Overlay](#) areas have been avoided, remedied or mitigated; and

### **F2.23. Assessment – restricted discretionary activities**

#### **F2.23.1. Matters of discretion**

The Council will restrict its discretion to all of the following matters when assessing a restricted discretionary resource consent application:

- (1) All restricted discretionary activities:
  - (c) effects on Mana Whenua values;
  - (d) experimental aquaculture activities (Do not apply to applications for replacement coastal permits for existing marine farms that include a change in consented species and are regulated under NES-MA regulations 26, 29, 32 or 35. The regulations prevail over this rule.):
    - (i) the effects on Mana Whenua values;

#### **F2.23.2. Assessment criteria**

The Council will consider the relevant assessment criteria for restricted discretionary activities from the list below:

- (1) All restricted discretionary activities:
  - (a) effects on Mana Whenua values:
    - (i) whether the proposal has included an assessment of Mana Whenua and how any effects have been avoided, remedied or mitigated.
  - (2) Activities in the Outstanding Natural Landscapes, Outstanding Natural Character and High Natural Character Overlay (Do not apply to applications for replacement coastal permits for existing marine farms that are subject to the NES-MA. The regulations prevail.):
    - (a) whether the proposal has considered the potential impacts on landscape, natural character, visual, amenity and experiential values by assessing the extent to which:
      - (ii) the proposed building or structure will impact on Mana Whenua values;
    - (b) whether occupation of the common marine and coastal area has been limited to circumstances where it can be demonstrated that:
      - (i) it is necessary to provide for the cultural and traditional needs of Mana Whenua.
- (3) Discharge of wastewater from a wastewater network:
  - (a) the extent to which the proposed best practicable option:
    - (i) prevents or minimises adverse effects particularly on public health, safety and amenity, potable water supplies, Mana Whenua values, freshwater systems and coastal waters;
    - (ii) progressively reduces overflows and associated adverse effects, and the priorities for doing so, having particular regard to areas of contact recreation and public use, receiving environments that are sensitive to the adverse effects of wastewater overflows and areas with high Mana Whenua values; and

- (iii) takes account of consultation with key stakeholders, including Mana Whenua and the community.
- (4) Discharge of wastewater from a combined sewer network:
  - (a) the extent to which the proposed best practicable option :
    - (i) prevents or minimises adverse effects particularly on public health, safety and amenity, potable water supplies, Mana Whenua values, freshwater systems and coastal waters;
    - (ii) progressively reduces overflows and associated adverse effects, and the priorities and timeframes for doing so, having particular regard to areas of contact recreation and public use, receiving environments that are sensitive to the adverse effects of wastewater overflows and areas with high Mana Whenua values;
    - (iii) takes account of consultation with key stakeholders, including Mana Whenua and the community; and
  - (b) construction or works methods:
    - (i) whether measures to ensure construction works avoid adverse effects and avoid, remedy or mitigate other adverse effects, particularly on water quality have been implemented;
- (5) Experimental aquaculture activities (Do not apply to applications for replacement coastal permits for existing marine farms that include a change in consented species and are regulated under NES-MA regulations 26, 29, 32 or 35. The regulations prevail.):
  - (a) effects on Mana Whenua values:
    - (i) whether the proposal has included an assessment of Mana Whenua values and how any adverse effects have been avoided, remedied or mitigated.
